

BASEBALL CAP

Baseball cap made of Polartec® PowerShield®.

Power Shield Polartec® fabrics are smooth, tightly woven fibers resistant to pulp , but without the stiffness and rustling traditional material of the outer layers . Made of polyester velor surfaces of the structure trap air and provide a high heat index relative to the weight of the fabric. All Polartec® Power Shield® knitted fabrics have been treated waterproof , they do not absorb rain or snow.

- Breathable, it is reducing the stress caused by the excess warmth created while practising sport.
- Waterproof surface, does not absorb rain or snow.
- Windproof.
- The abrasion-resistant fabric is keeping its form and the functionality irrespective of the contact with abrasive factors.

-Available in sizes: S/M , L/XL.
